

Najam Ul Hassan

Lahore, Punjab | +923088872215
najam.ul.hassantech@gmail.com

Summary

Skilled full-stack developer with hands-on experience at Arbisoft, where I worked on Full stack projects. Proven track record in hackathons, winning with a sustainable living guide and placing runner-up with a travel-sharing platform. Strong in Full Stack development, API integration, and deploying scalable web applications. Proficient in delivering high-quality solutions under tight deadlines.

Education

COMSATS Institute of Information Technology | Lahore, Punjab
Computer Science

Skills

Next.js, React.js, Express.js, Node.js, JavaScript, Prisma, Firebase, REST API, Django, Python, Tailwind

Experience

10Pearls | Punjab, Lahore

Web Developer Intern

Full Stack PrepMaster Website

- Developed *PrepMaster*, an online test preparation tool.
- Implemented student registration, mock tests, and teacher-managed test series.
- Integrated Stripe and OpenAI API.
- Built real-time chat, forums and review system for feedback.

Arbisoft | Punjab, Lahore

Full Stack Intern

Full-Stack E-commerce Platform:

- Built a Django e-commerce platform with JWT authentication, order management, Stripe payments, and seller-customer chat.
- Scraped 1600 products, developed a seller dashboard, and set up notifications and emails.
- Deployed on Render, with PostgreSQL on Aiven Cloud, and automated inventory with cron jobs

Projects

Hackathon Winner TechnoVerse (COMSATS Lahore)

- *Full-Stack Application*: Developed a comprehensive guide for sustainable living.
- *Environmental Focus*: Provided insights on eco-friendly practices and products.
- *API Integration*: Integrated third-party APIs for real-time environmental data.
- *Award-Winning*: Won the hackathon for innovation in promoting sustainability.

Runner-up Hackathon at PUCIT

- *Full-Stack Development*: Built a travel-sharing platform to connect users for shared trips.
- *Booking System*: Developed a real-time booking system for shared travel plans.
- *Interactive Maps*: Integrated interactive maps for route planning and trip visualization.
- *Runner-Up*: Achieved runner-up position for innovation in travel-sharing solutions
